

Setting a Higher Standard for International Shipping Performance

CLX Logistics, a leading supply chain logistics partner, offers unparalleled door-to-door International transportation services. We are renowned for exceptional customer service and innovations in transportation management. Most importantly, we are widely respected for our adherence to international shipping best practices – ensuring proper compliance, while maximizing your bottom line.

CLX Logistics is a non-asset based 3PL provider partnering with ocean, air and ground carriers to develop customized global transportation solutions for our customers. As our valued client, you can rely on us to provide you with customized solutions for your specific shipping needs, from

oversized project cargo, to urgent airfreight shipments and more.

With our comprehensive menu of international shipping solutions, expertise, and history of superior, personalized service, we have what it takes to manage your global shipments in the most reliable and cost effective manner.

- Customs clearance
- Cargo insurance

Comprehensive International Shipping Solutions

Cargo Insurance

Accidents happen in transit. What many shippers fail to realize is that carriers are not fully liable for loss or damage to goods shipped internationally – especially when damage results from Acts of God or Acts of War. Without proper transit and warehouse insurance, shippers can expose themselves to costs of loss or damage outside of their own goods.

With a CLX Logistics cargo insurance policy, you will receive the comprehensive coverage you need to minimize risk and liability in the event that your goods are lost or damaged in transit.

- Customized coverage to meet your needs
- Competitive rates
- Door-to-door single source coverage

Global Logistics

CLX Logistics is more than a Freight Forwarder.

We are a world class third party logistics partner (3PL) offering a full suite of solutions to help manage your international transportation and optimize your supply chain.
